

Dr. M. Yang
Assistant Professor of Safety and Security Science

Employment

Safety and Security Science

Delft University of Technology

1 Jun 2020 → 28 Mar 2049

Research outputs

Cost-effective maintenance of safety and security barriers in the chemical process industries via genetic algorithm

Yuan, S., Reniers, G., Yang, M. & Bai, Y., Feb 2023, In: Process Safety and Environmental Protection. 170, p. 356-371 16 p.

A Bayesian-network approach for assessing the probability of success of physical security attacks to offshore Oil&Gas facilities

Iaiani, M., Tugnoli, A., Cozzani, V., Reniers, G. & Yang, M., 2023, In: Ocean Engineering. 273, 114010.

A dynamic condition assessment model of aging subsea pipelines subject to corrosion-fatigue degradation

Han, Z., Li, X., Zhang, R., Yang, M. & Seghier, M. E. A. B., 2023, In: Applied Ocean Research. 139, 103717.

A resilience assessment framework for complex engineered systems using graphical evaluation and review technique (GERT)

Geng, S., Yang, M., Mitici, M. & Liu, S., 2023, In: Reliability Engineering and System Safety. 236, 109298.

An integrated resilience assessment methodology for emergency response systems based on multi-stage STAMP and dynamic Bayesian networks

An, X., Yin, Z., Tong, Q., Fang, Y., Yang, M., Yang, Q. & Meng, H., 2023, In: Reliability Engineering and System Safety. 238, 21 p., 109445.

Application of game theory in risk management of urban natural gas pipelines

Li, X., Ma, J., Han, Z., Zhang, Y. & Yang, M., 2023, In: Journal of Loss Prevention in the Process Industries. 83, 105037.

Dynamic thresholds for the resilience assessment of road traffic networks to wildfires

Arango, E., Nogal, M., Yang, M., Sousa, H. S., Stewart, M. G. & Matos, J. C., 2023, In: Reliability Engineering and System Safety. 238, 17 p., 109407.

Dynamic-risk-informed safety barrier management: An application to cost-effective barrier optimization based on data from multiple sources

Yuan, S., Reniers, G. & Yang, M., 2023, In: Journal of Loss Prevention in the Process Industries. 83, 105034.

Editorial: Materials for thermal safety enhancement in energy industries

Zhang, Y., Mao, B., Yang, M., Lu, K. & Tian, F., 2023, In: Frontiers in Materials. 10, 1269093.

Inference algorithms for the useful life of safety instrumented systems under small failure sample data

Mao, Q., Wang, H., Yang, M. & Hu, J., 2023, In: Process Safety and Environmental Protection. 170, p. 783-790 8 p.

On the quantitative resilience assessment of complex engineered systems

Yang, M., Sun, H. & Geng, S., 2023, In: Process Safety and Environmental Protection. 174, p. 941-950 10 p.

Quantitative Evaluation of the Probability of Success of Deliberate Attacks in the Offshore Oil&Gas Industry

Iaiani, M., Tugnoli, A., Cozzani, V., Reniers, G. & Yang, M., 2023, In: Chemical Engineering Transactions. 99, p. 121-126 6 p.

Real-time pipeline leak detection and localization using an attention-based LSTM approach

Zhang, X., Shi, J., Yang, M., Huang, X., Usmani, A. S., Chen, G., Fu, J., Huang, J. & Li, J., 2023, In: Process Safety and Environmental Protection. 174, p. 460-472 13 p.

Resilience assessment and management

Yang, M., 2023, In: Process Safety and Environmental Protection. 178, p. 309-310 2 p.

Towards deep probabilistic graph neural network for natural gas leak detection and localization without labeled anomaly data

Zhang, X., Shi, J., Huang, X., Xiao, F., Yang, M., Huang, J., Yin, X., Sohail Usmani, A. & Chen, G., 2023, In: Expert Systems with Applications. 231, 120542.

Uncertainties and their treatment in the quantitative risk assessment of domino effects: Classification and review

Xu, Y., Reniers, G., Yang, M., Yuan, S. & Chen, C., 2023, In: Process Safety and Environmental Protection. 172, p. 971-985 15 p.

Uncertainty Modeling of a Chemical System with a Flexible Node by Mapping the Fault Tree into the Response Surface Method

Modi, S., Srinivasa Rao, M., Gupta, T. C. S. M. & Yang, M., 2023, In: Industrial and Engineering Chemistry Research.

A Quantitative Framework for Resilience Assessment of Complex Engineered Systems under Uncertainty

Geng, S., Yang, M. & Liu, S., 2022, In: Chemical Engineering Transactions. 91, p. 31-36 6 p.

A Resilience-Based Approach for the Prevention and Mitigation of Domino Effects

Chen, C., Reniers, G. & Yang, M., 2022, *Integrating Safety and Security Management to Protect Chemical Industrial Areas from Domino Effects*. Springer, p. 155-176 22 p. (Springer Series in Reliability Engineering).

A STAMP-based approach to quantitative resilience assessment of chemical process systems

Sun, H., Wang, H., Yang, M. & Reniers, G., 2022, In: Reliability Engineering and System Safety. 222, 108397.

A virtual experiment for measuring system resilience: a case of chemical process systems

Sun, H., Yang, M. & Wang, H., 2022, In: Reliability Engineering & System Safety. 228, 108829, 108829.

An Approach for Identification of Integrated Safety and Security Barriers in the Chemical Process Industries

Yuan, S., Yang, M., Reniers, G. & Chen, C., 2022, In: Chemical Engineering Transactions. 90, p. 571-576 6 p.

An Economic Approach for Domino Effect Management

Chen, C., Reniers, G. & Yang, M., 2022, *Integrating Safety and Security Management to Protect Chemical Industrial Areas from Domino Effects*. Springer, p. 133-154 22 p. (Springer Series in Reliability Engineering).

An Exploratory Study on Uncertainty Analysis in Quantitative Risk Assessment of Domino Effects

Xu, Y., Reniers, G., Yang, M., Yuan, S. & Chen, C., 2022, In: Chemical Engineering Transactions. 90, p. 565-570 6 p.

Bibliometric Analysis of Accidental Oil Spills in Ice-Infested Waters

Kabyl, A., Yang, M., Shah, D. & Ahmad, A., 2022, In: International Journal of Environmental Research and Public Health. 19, 22, 15190.

Conclusions and Future Research

Chen, C., Reniers, G. & Yang, M., 2022, *Integrating Safety and Security Management to Protect Chemical Industrial Areas from Domino Effects*. Springer, p. 177-184 8 p. (Springer Series in Reliability Engineering).

Designing reliable, data-driven maintenance for aircraft systems with applications to the aircraft landing gear brakes

Lee, J., Mitici, M. A., Geng, S. & Yang, M., 2022, *Proceedings of the 32nd European Safety and Reliability Conference*. Leva, M. C., Patelli, E., Podofillini, L. & Wilson, S. (eds.). ESREL

Dynamic Assessment of VCE-Induced Domino Effects

Chen, C., Reniers, G. & Yang, M., 2022, *Integrating Safety and Security Management to Protect Chemical Industrial Areas from Domino Effects*. Springer, p. 69-93 25 p. (Springer Series in Reliability Engineering).

Dynamic Risk Assessment of Chemical Process Systems using System-Theoretic Accident Model and Process (STAMP) and Failure Propagation Model

Sun, H., Wang, H., Yang, M. & Reniers, G., 2022, In: *Chemical Engineering Transactions*. 90, p. 301-306 6 p.

Dynamic Risk Assessment of Fire-Induced Domino Effects

Chen, C., Reniers, G. & Yang, M., 2022, *Integrating Safety and Security Management to Protect Chemical Industrial Areas from Domino Effects*. Springer, p. 49-68 20 p. (Springer Series in Reliability Engineering).

Dynamic resilience assessment and emergency strategy optimization of natural gas compartments in utility tunnels

Bai, Y., Wu, J., Yuan, S., Reniers, G., Yang, M. & Cai, J., 2022, In: *Process Safety and Environmental Protection*. 165, p. 114-125 12 p.

Fault detection and diagnosis to enhance safety in digitalized process system

Kopbayev, A., Khan, F., Yang, M. & Halim, S. Z., 2022, In: *Computers and Chemical Engineering*. 158, 107609.

Gas leakage detection using spatial and temporal neural network model

Kopbayev, A., Khan, F., Yang, M. & Halim, S. Z., 2022, In: *Process Safety and Environmental Protection*. 160, p. 968-975 8 p.

Influence-Based Consequence Assessment of Subsea Pipeline Failure under Stochastic Degradation

Adumene, S., Islam, R., Dick, I. F., Zarei, E., Inegiyemiema, M. & Yang, M., 2022, In: *Energies*. 15, 20, p. 1-10 7460.

Integrated Safety and Security Management to Tackle Domino Effects

Chen, C., Reniers, G. & Yang, M., 2022, *Integrating Safety and Security Management to Protect Chemical Industrial Areas from Domino Effects*. Springer, p. 111-131 21 p. (Springer Series in Reliability Engineering).

Machine learning in process safety and asset integrity management

Yang, M., Sun, H. & Abubakirov, R., 2022, *Machine Learning in Chemical Safety and Health: Fundamentals with Applications*. Wang, Q. & Cai, C. (eds.). John Wiley & Sons, p. 93-112 20 p.

Methods to Assess and Manage Process Safety in Digitalized Process System

Khan, F. (ed.), Pasman, H. (ed.) & Yang, M. (ed.), 2022, Elsevier. (Methods in Chemical Process Safety)

Opportunities and threats to process safety in digitalized process system-an overview

Pasman, H., Sun, H., Yang, M. & Khan, F., 2022, *Methods to assess and manage process safety in digitalized process system*. Elsevier, Vol. 6. (Methods in Chemical Process Safety).

Preface of Integrating Safety and Security Management to Protect Chemical Industrial Areas from Domino Effects

Chen, C., Reniers, G. & Yang, M., 2022, *Integrating Safety and Security Management to Protect Chemical Industrial Areas from Domino Effects*. Springer, p. v-vi (Springer Series in Reliability Engineering).

Probabilistic failure assessment of oil pipelines due to internal corrosion

Khakzad, S., Yang, M., Lohi, A. & Khakzad, N., 2022, (Accepted/In press) In: *Process Safety Progress*. 41, 4, p. 793-803 11 p.

Resilience Assessment of Chemical Process Systems under uncertain Disruptions based on Catastrophe Theory (CT) and Dynamic Bayesian Network (DBN)

Sun, H., Wang, H., Yang, M. & Reniers, G., 2022, In: *Chemical Engineering Transactions*. 91, p. 97-102 6 p.

Resilience analysis of digitalized process systems

Yarveisy, R., Sun, H., Yang, M. & Pasman, H., 2022, *Methods to assess and manage process safety in digitalized process system*. Khan, F., Pasman, H. & Yang, M. (eds.). Elsevier, Vol. 6. p. 591-629 (Methods in Chemical Process Safety).

Resilience-based approach to maintenance asset and operational cost planning

Sun, H., Yang, M. & Wang, H., 2022, In: *Process Safety and Environmental Protection*. 162, p. 987-997 11 p.

Risk Assessment of Coupled Hazardous Scenarios

Chen, C., Reniers, G. & Yang, M., 2022, *Integrating Safety and Security Management to Protect Chemical Industrial Areas from Domino Effects*. Springer, p. 95-110 16 p. (Springer Series in Reliability Engineering).

Safety and Security of Domino Effects in the Process Industry: The State of the Art

Chen, C., Reniers, G. & Yang, M., 2022, *Integrating Safety and Security Management to Protect Chemical Industrial Areas from Domino Effects*. Springer, p. 1-48 48 p. (Springer Series in Reliability Engineering).

Safety barrier performance assessment by integrating computational fluid dynamics and evacuation modeling for toxic gas leakage scenarios

Yuan, S., Cai, J., Reniers, G., Yang, M., Chen, C. & Wu, J., 2022, In: *Reliability Engineering and System Safety*. 226, 108719.

Safety barriers in the chemical process industries: A state-of-the-art review on their classification, assessment, and management

Yuan, S., Yang, M., Reniers, G., Chen, C. & Wu, J., 2022, In: *Safety Science*. 148, 105647.

Special issue: Process safety in times of a pandemic

Cozzani, V. & Yang, M., 2022, In: *Journal of Loss Prevention in the Process Industries*. 76, 104746.

The Necessity of Integrating Safety and Security Barriers in the Chemical Process Industries and its Potential Framework

Yuan, S., Reniers, G. & Yang, M., 2022, In: *Chemical Engineering Transactions*. 91, p. 13-18 6 p.

The Role of Emergency Response in Risk Management of Cascading Events Caused by Natech Accidents

Ricci, F., Yang, M., Reniers, G. & Cozzani, V., 2022, In: *Chemical Engineering Transactions*. 91, p. 361-366 6 p.

Value of Safety

Yang, M., Chen, C., Yuan, S., Hermias, J. & Reniers, G. L. L. M. E., 2022, (Submitted) Delft University of Technology. 49 p.

A food chain-based ecological risk assessment model for oil spills in the Arctic environment

Fahd, F., Yang, M., Khan, F. & Veitch, B., May 2021, In: *Marine Pollution Bulletin*. 166, 112164.

(Petro)chemische clusters en veiligheid: Een clusterspecifieke rangschikking van veiligheidsparameters

van Nunen, K. L. L., Reniers, G. L. L. M. E., Yang, M., Chen, C. & Yuan, S., 2021, Delft University of Technology. 35 p.

A bibliometric and visualized overview for the evolution of process safety and environmental protection

Xue, J., Reniers, G., Li, J., Yang, M., Wu, C. & van Gelder, P. H. A. J. M., 2021, In: International Journal of Environmental Research and Public Health. 18, 11, 5985.

A dynamic stochastic methodology for quantifying HAZMAT storage resilience

Chen, C., Yang, M. & Reniers, G., 2021, In: Reliability Engineering and System Safety. 215, 107909.

A safety function deployment approach to risk management of HazMat highway transportation

Zhigerbayeva, G. & Yang, M., 2021, In: Journal of Chemical Health and Safety. 28, 5, p. 348-357 10 p.

A semi-quantitative methodology for risk assessment of university chemical laboratory

Li, X., Zhang, L., Zhang, R., Yang, M. & Li, H., 2021, In: Journal of Loss Prevention in the Process Industries. 72, 104553.

A sequence-based method for dynamic reliability assessment of MPD systems

Zhu, J., Chen, G., Khan, F., Yang, M., Li, X., Meng, X. & He, R., 2021, In: Process Safety and Environmental Protection. 146, p. 927-942 16 p.

Bi-directional connectivity diagram for accident propagation analysis considering the interactions between multiple-process units

Qi, X. G., Wang, H., Liu, Y., Yang, M. & Chen, G., 2021, In: Journal of Loss Prevention in the Process Industries. 71, 104442.

Canada's oil sands industry from a sustainability perspective

Khakzad, N., Dadashzadeh, M., Abbassi, R. & Yang, M., 2021, In: Journal of Environmental Engineering and Science. 17, 1, p. 1-9 9 p.

Dynamic probability assessment of urban natural gas pipeline accidents considering integrated external activities

Li, X., Zhang, Y., Abbassi, R., Yang, M., Zhang, R. & Chen, G., 2021, In: Journal of Loss Prevention in the Process Industries. 69, 104388.

Operational safety economics: Foundations, current approaches and paths for future research

Chen, C., Reniers, G., Khakzad, N. & Yang, M., 2021, In: Safety Science. 141, 105326.

Quantitative resilience assessment of chemical process systems using functional resonance analysis method and Dynamic Bayesian network

Zinetullina, A., Yang, M., Khakzad, N., Golman, B. & Li, X., 2021, In: Reliability Engineering and System Safety. 205, 107232.

Resilience-based approach to safety barrier performance assessment in process facilities

Sun, H., Wang, H., Yang, M. & Reniers, G., 2021, In: Journal of Loss Prevention in the Process Industries. 73, 104599.

Risk assessment of offshore fire accidents caused by subsea gas release

Li, X., Khan, F., Yang, M., Chen, C. & Chen, G., 2021, In: Applied Ocean Research. 115, 16 p., 102828.

Special issue: Risk-based approaches to design and operation of process systems

Khakzad, N. & Yang, M., 2021, In: Journal of Loss Prevention in the Process Industries. 72, 104559.

The Game of Guwarra: A game theory-based decision-making framework for site selection of offshore wind farms in Australia

Golestani, N., Arzaghi, E., Abbassi, R., Garaniya, V., Abdussamie, N. & Yang, M., 2021, In: Journal of Cleaner Production. 326, 129358.

Towards limiting potential domino effects from single flammable substance release in chemical complexes by risk-based shut down of critical nearby process units

Sun, H., Wang, H., Yang, M. & Reniers, G., 2021, In: Process Safety and Environmental Protection. 148, p. 1292-1303 12 p.

A risk-based approach to produced water management in offshore oil and gas operations

Kabyl, A., Yang, M., Abbassi, R. & Li, S., Jul 2020, In: Process Safety and Environmental Protection. 139, p. 341-361 21 p.

System safety assessment using safety entropy

Yang, M., Jul 2020, In: Journal of Loss Prevention in the Process Industries. 66, 104174.

A Dynamic Bayesian Network-based approach to Resilience Assessment of Engineered Systems

Tong, Q., Yang, M. & Zinetullina, A., May 2020, In: Journal of Loss Prevention in the Process Industries. 65, 104152.

A risk-based approach to determination of optimal inspection intervals for buried oil pipelines

Abubakirov, R., Yang, M. & Khakzad, N., Feb 2020, In: Process Safety and Environmental Protection. 134, p. 95-107 13 p.

A machine learning-based approach to the identification of key material failure modes of the process facilities

Abubakirov, R. & Yang, M., 2020, *2020 AIChE Virtual Spring Meeting and 16th Global Congress on Process Safety*. AIChE, (2020 Virtual Spring Meeting and 16th GCPS proceedings).

Dynamic resilience assessment for process units operating in Arctic environments

Zinetullina, A., Yang, M., Khakzad, N. & Golman, B., 2020, In: Safety in Extreme Environment. 2

On the application of the window of opportunity and complex network to risk analysis of process plants operations during a pandemic

Sun, H., Wang, H., Yang, M. & Reniers, G. L. L. M. E., 2020, In: Journal of Loss Prevention in the Process Industries. 68, 104322.

Reliability assessment of ultra-deep oil and gas wellbore casing using data statistics and numerical simulations

Yang, S., Zhang, R., Wang, J., Li, X., Fan, H. & Yang, M., 2020, In: Journal of Loss Prevention in the Process Industries. 69, 104369.

An integrated framework for subsea pipelines safety analysis considering causation dependencies

Li, X., Yang, M. & Chen, G., 1 Jul 2019, In: Ocean Engineering. 183, p. 175-186 12 p.

Risk assessment of process systems by mapping fault tree into artificial neural network

Sarbayev, M., Yang, M. & Wang, H., Jul 2019, In: Journal of Loss Prevention in the Process Industries. 60, p. 203-212 10 p.

Probabilistic assessment of integrated safety and security related abnormal events: a case of chemical plants

Song, G., Khan, F. & Yang, M., Mar 2019, In: Safety Science. 113, p. 115-125 11 p.

Integrated risk management of hazardous processing facilities

Song, G., Khan, F. & Yang, M., 2019, In: Process Safety Progress. 38, 1, p. 42-51 10 p.

Review of risk-based design for ice-class ships

Kujala, P., Goerlandt, F., Way, B., Smith, D., Yang, M., Khan, F. & Veitch, B., 2019, In: Marine Structures. 63, p. 181-195 15 p.

Security assessment of process facilities – Intrusion modeling

Song, G., Khan, F. & Yang, M., Jul 2018, In: Process Safety and Environmental Protection. 117, p. 639-650 12 p.

A numerical fire simulation approach for effectiveness analysis of fire safety measures in floating liquefied natural gas facilities

Yang, R., Khan, F., Yang, M., Kong, D. & Xu, C., 1 Jun 2018, In: Ocean Engineering. 157, p. 219-233 15 p.

Major process accidents: Their characteristics, assessment, and management of the associated risks

Yang, M., Jun 2018, In: Process Safety Progress. 37, 2, p. 268-275 8 p.

An integrated approach for dynamic economic risk assessment of process systems

Adedigba, S. A., Khan, F. & Yang, M., May 2018, In: Process Safety and Environmental Protection. 116, p. 312-323 12 p.

Dynamic modeling of TENORM exposure risk during drilling and production

Alnabhani, K., Khan, F. & Yang, M., 1 Mar 2018, In: Journal of Petroleum Exploration and Production Technology. 8, 1, p. 175-188 14 p.

Kick control reliability analysis of managed pressure drilling operation

Sule, I., Khan, F., Butt, S. & Yang, M., 1 Mar 2018, In: Journal of Loss Prevention in the Process Industries. 52, p. 7-20 14 p.

Incorporation of inherently safer design principles in process safety assurance: Association with risk assessment and use of risk-based approach

Yang, M., 1 Jan 2018, In: Institution of Chemical Engineers Symposium Series. 2018-May, 163

An operational risk analysis tool to analyze marine transportation in Arctic waters

Khan, B., Khan, F., Veitch, B. & Yang, M., Jan 2018, In: Reliability Engineering and System Safety. 169, p. 485-502 18 p.

Failure analysis of the offshore process component considering causation dependence

Deyab, S. M., Taleb-berrouane, M., Khan, F. & Yang, M., Jan 2018, In: Process Safety and Environmental Protection. 113, p. 220-232 13 p.

Predictive abnormal events analysis using continuous Bayesian network

Song, G., Khan, F., Yang, M. & Wang, H., Dec 2017, In: ASCE-ASME Journal of Risk and Uncertainty in Engineering Systems, Part B: Mechanical Engineering. 3, 4, 041004.

A probabilistic ecological risk model for Arctic marine oil spills

Afenyo, M., Khan, F., Veitch, B. & Yang, M., 1 Apr 2017, In: Journal of Environmental Chemical Engineering. 5, 2, p. 1494-1503 10 p.

A risk-based tool to evaluate oil spill prevention and mitigative measures in arctic marine environments

Afenyo, M., Khan, F., Veitch, B. & Yang, M., 1 Jan 2017, p. 275-285. 11 p.

Aquatic ecotoxicological models and their applicability in Arctic regions

Fahd, F., Khan, F., Veitch, B. & Yang, M., 1 Jan 2017, In: Marine Pollution Bulletin. 120, 1-2, p. 428-437 10 p.

Arctic shipping accident scenario analysis using Bayesian Network approach

Afenyo, M., Khan, F., Veitch, B. & Yang, M., 1 Jan 2017, In: Ocean Engineering. 133, p. 224-230 7 p.

Dynamic failure analysis of process systems using principal component analysis and Bayesian network

Adedigba, S. A., Khan, F. & Yang, M., 1 Jan 2017, In: Industrial and Engineering Chemistry Research. 56, 8, p. 2094-2106 13 p.

Management of TENORMs produced during oil and gas operation

ALNabhani, K., Khan, F. & Yang, M., 1 Jan 2017, In: Journal of Loss Prevention in the Process Industries. 47, p. 161-168 8 p.

Dynamic failure analysis of process systems using neural networks

Adedigba, S. A., Khan, F. & Yang, M., 2017, In: Process Safety and Environmental Protection. 111, p. 529-543 15 p.

Dynamic fugacity model for accidental oil release during Arctic shipping

Afenyo, M., Khan, F., Veitch, B. & Yang, M., 15 Oct 2016, In: Marine Pollution Bulletin. 111, 1-2, p. 347-353 7 p.

Dynamic safety analysis of process systems using nonlinear and non-sequential accident model

Adedigba, S. A., Khan, F. & Yang, M., 1 Jul 2016, In: Chemical Engineering Research and Design. 111, p. 169-183 15 p.

Process accident model considering dependency among contributory factors

Adedigba, S. A., Khan, F. & Yang, M., 1 Jul 2016, In: Process Safety and Environmental Protection. 102, p. 633-647 15 p.

The importance of public participation in legislation of TENORM risk management in the oil and gas industry

ALNabhani, K., Khan, F. & Yang, M., 1 Jul 2016, In: Process Safety and Environmental Protection. 102, p. 606-614 9 p.

Modeling oil weathering and transport in sea ice

Afenyo, M., Khan, F., Veitch, B. & Yang, M., 15 Jun 2016, In: Marine Pollution Bulletin. 107, 1, p. 206-215 10 p.

Risk-based winterization to prevent hydrate formation in northern harsh environment

Herath, D., Khan, F. & Yang, M., 1 Jun 2016, In: Ocean Engineering. 119, p. 208-216 9 p.

Risk-based Winterization on a North Atlantic-based ferry design

Yang, M., Khan, F., Oldford, D., Lye, L. & Sulistiyono, H., May 2016, In: Journal of Ship Production and Design. 32, 2, p. 99-109 11 p.

Scenario-based risk assessment of TENORM waste disposal options in oil and gas industry

ALNabhani, K., Khan, F. & Yang, M., 1 Mar 2016, In: Journal of Loss Prevention in the Process Industries. 40, p. 55-66 12 p.

An exploratory review of weathering and transport modeling of accidental releases in arctic waters

Afenyo, M., Khan, F., Veitch, B. & Yang, M., 1 Jan 2016, *Arctic Technology Conference 2016*. Offshore Technology Conference, (Arctic Technology Conference 2016).

Application of loss functions in process economic risk assessment

Khan, F., Wang, H. & Yang, M., 1 Jan 2016, In: Chemical Engineering Research and Design. 111, p. 371-386 16 p.

Technologically Enhanced Naturally Occurring Radioactive Materials in oil and gas production: A silent killer

Al Nabhani, K., Khan, F. & Yang, M., 1 Jan 2016, In: Process Safety and Environmental Protection. 99, p. 237-247 11 p.

A risk-based approach to developing design temperatures for vessels operating in low temperature environments

Sulistiyono, H., Khan, F., Lye, L. & Yang, M., 1 Nov 2015, In: Ocean Engineering. 108, p. 813-819 7 p.

Risk assessment of rare events

Yang, M., Khan, F., Lye, L. & Amyotte, P., Nov 2015, In: Process Safety and Environmental Protection. 98, p. 102-108 7 p.

Operational risk assessment: A case of the Bhopal disaster

Yang, M., Khan, F. & Amyotte, P., 1 Sep 2015, In: Process Safety and Environmental Protection. 97, p. 70-79 10 p.

Safety challenges in harsh environments: Lessons learned

Khan, F., Ahmed, S., Yang, M., Hashemi, S. J., Caines, S., Rathnayaka, S. & Oldford, D., 1 Jun 2015, In: Process Safety Progress. 34, 2, p. 191-195 5 p.

Estimating design temperatures in Arctic environments: A new approach

Sulistiyono, H., Lye, L. M., Khan, F. I., Yang, M., Oldford, D. & Dolny, J., 6 Jan 2015, *2014 Oceans - St. John's, OCEANS 2014*. Institute of Electrical and Electronics Engineers (IEEE), 7002975. (2014 Oceans - St. John's, OCEANS 2014).

Multimedia fate modeling of oil spills in ice-infested waters: An exploration of the feasibility of fugacity-based approach

Yang, M., Khan, F., Garaniya, V. & Chai, S., 1 Jan 2015, In: *Process Safety and Environmental Protection*. 93, p. 206-217 12 p.

Risk-based winterization for vessels operations in Arctic environments

Yang, M., Khan, F. I., Lye, L., Sulistiyono, H., Dolny, J. & Oldford, D., 1 Jan 2015, *Society of Naval Architects and Marine Engineers - Transactions 2015*. Society of Naval Architects and Marine Engineers: SNAME, Vol. 121. p. 807-818 12 p.

Integrity challenges in harsh environments: Lessons learned and potential development strategies

Khan, F., Ahmed, S., Hashemi, S. J., Yang, M., Caines, S. & Oldford, D., 1 Jan 2014, In: *Institution of Chemical Engineers Symposium Series*. 159

Transportation risk analysis framework for Arctic waters

Khan, F., Yang, M., Veitch, B., Ehlers, S. & Chai, S., 1 Jan 2014, *Polar and Arctic Science and Technology*. ASME, (Proceedings of the International Conference on Offshore Mechanics and Arctic Engineering - OMAE; vol. 10).

Risk-based winterization for vessels operations in arctic environments

Yang, M., Khan, F. I., Lye, L., Sulistiyono, H., Dolny, J. & Oldford, D., 1 Nov 2013, In: *Journal of Ship Production and Design*. 29, 4, p. 199-210 12 p.

Precursor-based hierarchical Bayesian approach for rare event frequency estimation: A case of oil spill accidents

Yang, M., Khan, F. I. & Lye, L., 1 Sep 2013, In: *Process Safety and Environmental Protection*. 91, 5, p. 333-342 10 p.

A rough set-based game theoretical approach for environmental decision-making: A case of offshore oil and gas operations

Yang, M., Khan, F. I., Sadiq, R. & Amyotte, P., 1 May 2013, In: *Process Safety and Environmental Protection*. 91, 3, p. 172-182 11 p.

Safety challenges in harsh environments: Lessons learned

Khan, F., Ahmed, S., Yang, M., Javad Hashemi, S., Caines, S. & Oldford, D., 1 Jan 2013, *1st CCPS Asia-Pacific Conference on Process Safety 2013, APCPS 2013*. AIChE, p. 450-459 10 p. (1st CCPS Asia-Pacific Conference on Process Safety 2013, APCPS 2013).

Pollution prevention in offshore oil and gas operations: Opportunities and implementation

Yang, M. & Khan, F. I., 1 Dec 2012, *Annual Conference of the Canadian Society for Civil Engineering 2012: Leadership in Sustainable Infrastructure, CSCE 2012*. p. 1240-1253 14 p. (Proceedings, Annual Conference - Canadian Society for Civil Engineering; vol. 2).

A rough set-based quality function deployment (QFD) approach for environmental performance evaluation: A case of offshore oil and gas operations

Yang, M., Khan, F. I., Sadiq, R. & Amyotte, P., 1 Sep 2011, In: *Journal of Cleaner Production*. 19, 13, p. 1513-1526 14 p.

Prioritization of environmental issues in offshore oil and gas operations: A hybrid approach using fuzzy inference system and fuzzy analytic hierarchy process

Yang, M., Khan, F. I. & Sadiq, R., 1 Jan 2011, In: *Process Safety and Environmental Protection*. 89, 1, p. 22-34 13 p.

Risk and pollution prevention focused environmental management system (RP2EMS): a case of offshore oil and gas operations

Yang, M., 2011

Activities

Understanding the value of safety

M. Yang (Speaker)
30 Nov 2022

Engineering Applications of Artificial Intelligence (Journal)

M. Yang (Editor)
Oct 2022 → ...

Frontiers in Materials (Journal)

M. Yang (Editor)
Sep 2022 → Jan 2023

Energies (Journal)

M. Yang (Editor)
1 Jul 2022 → 23 Jan 2023

On the quantitative resilience assessment of complex engineered systems

M. Yang (Keynote speaker)
10 May 2022

Process Safety and Environmental Protection (Journal)

M. Yang (Editor)
2022

Risk-based approach to design and operation of engineered systems

M. Yang (Invited speaker)
Nov 2021

Sustainability (Switzerland) (Journal)

G.L.L.M.E. Reniers (Editor) & M. Yang (Editor)
Oct 2021 → Oct 2022

Process Safety and Environmental Protection (Journal)

M. Yang (Editor)
2021 → 2022

Quantitative risk assessment of process operations

M. Yang (Invited speaker)
2021

Safety Science (Journal)

M. Yang (Editor)
2021

Journal of Loss Prevention in the Process Industries (Journal)

M. Yang (Editorial board member)
Oct 2020

Journal of Chemical Health and Safety (Journal)

M. Yang (Editor)
Aug 2020

China University of Petroleum (East China)

M. Yang (Visiting lecturer)

Jun 2019

Journal of Loss Prevention in the Process Industries (Journal)

M. Yang (Editor)

2019

Safety in Extreme Environment (Journal)
